

Aastra Mobile – Next Generation Aastra 620d

Aastra 620d is the new DECT business phone. It can be used worldwide with all Aastra PABXes. Variations for OEM customers are possible, the GAP standard for basic functions is supported.

Aastra 620d has a large illuminated 2" graphic colour display and 8 programmable keys provide you with quick access to your favorite functions. Service facilities like firmware download over air help reducing support costs.* The handset is equipped with a Bluetooth® interface for cordless headsets and comes with an option for a higher capacity battery.

Aastra
