Offices	public buildings
Industrial zones	Airport and parking
Schools and campuses	

The toughest IP intercom

It combines an anti-vandal solution with an elegant design. High durability guarantees the highest coverage on the market according to the IP69K and IK10 standards.

Wide-angle HD camera

Monitor events around the intercom with the integrated HD camera. It has 135°wide viewing and a night vision mode.

Robust Access Control

Control access using the reader, keypad, or the integrated camera and achieve a greater level of security for all those on the location.

2N® IP Force

FEATURES & BENEFITS

SIP support with no server needed
SIP protocol support makes it easy to link the intercom with IP phones and PBX from other producers, without having to connect to the server.

Security relay
This simple additional device prevents intrusion by detecting any unauthorized manipulation of the electronic locking system.

Picture to email
2N® IP Force allows you to email snapshots of the visitor captured by the camera at the time of the call.

Integration to the security system
Easily link the intercom to the existing security system and increase site security.

Calls to mobile and tablet
2N® IP Force can call a mobile phone or tablet, over the local network via wi-fi or over cellular data.

Integration into CCTV & VMS
2N® IP Force can easily be integrated with your existing CCTV or surveillance system.
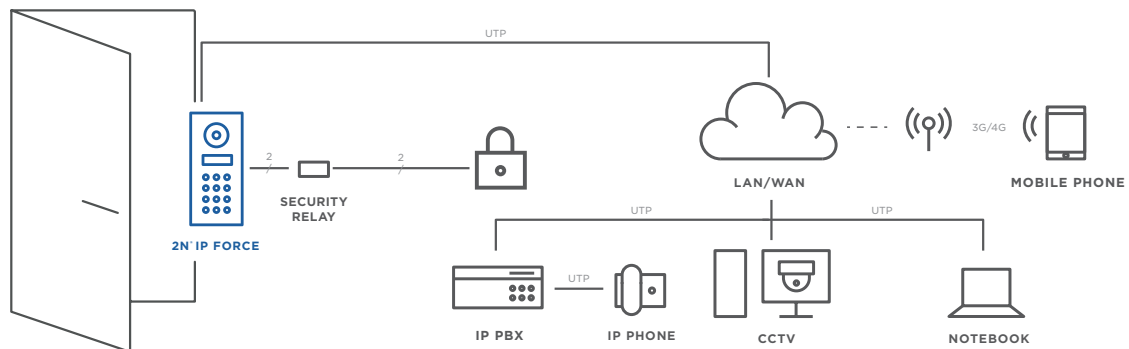

Tamper switch
2N® IP Force can be fitted with a tamper switch that detects unauthorized opening of the device itself.

2N® Remote Configuration
Save time and money for onsite support thanks to our free service. Access all your devices remotely via secured cloud connection. Fastest response to your customers requests.
