Polycom IP670 Colour SoundPoint Expansion Module
The Polycom IP670 is an expansion module that enables you to turn Your SoundPoint IP 670 into a High-Performance Colour Attendant Console.

ï¿½ The "industry’s first color expansion module"
ï¿½ Delivers business scalability and investment protection by adding up to three modules to the SoundPoint IP 670
ï¿½ Simplifies management and monitoring of a high volume of simultaneous calls
ï¿½ Features a large, vibrant color display for easier viewing, navigation, and call visualization
ï¿½ In conjunction with SoundPoint IP 670 the expansion module offers a high-performance, productivity-enhancing solution for telephone attendants

Features and Benefits

ï¿½ Augments the same visually pleasing, vibrant color user interface of the SoundPoint IP 670
ï¿½ Matches elegantly with the look and feel of the SoundPoint IP 670
ï¿½ Easy to deploy - Plug and play as power and signaling are provided by the host phone
ï¿½ Hot swappable – can be added to or removed from a live SoundPoint IP 670
ï¿½ 14 illuminated keys configurable as a line appearance or a speed dial with busy lamp field
