# Yealink WF40 - Wi-Fi USB Dongle

Product Name: Yealink WF40 - Wi-Fi USB Dongle
Manufacturer: -
Model Number: WF40

Please Note: This product has been discontinued.

Yealink WF40 - Wi-Fi USB Dongle
The Yealink WF40 is a compact and energy-efficient device designed for seamless IP phone connectivity within office environments. This USB device offers a dynamic plug-and-play experience, serving as an excellent networking solution for businesses, especially smaller ones, in need of cost-effective, dependable, and high-speed wireless linking. Boasting a robust 150 Mbps transmission rate, the solution rapidly establishes Wi-Fi connectivity, enabling users to effectively communicate, collaborate, access essential documents, and more.
Yealink WF40 - Wi-Fi USB Dongle Key Features:

ï¿½ Reliable Connection
ï¿½ Ease-of-use
ï¿½ Plug and Play
ï¿½ High Transmission Rate

With its emphasis on safety, reliability, and effortless deployment, the WF40 Wi-Fi USB Dongle ensures a versatile and optimal user experience. Furthermore, it adheres to the IEEE802.11n and IEEE802.11b/g standards, thereby maximizing both reliability and throughput. Its compatibility with these standards guarantees a secure and efficient connection. Whether for quick communication or resource access, the WF40 Wi-Fi USB Dongle stands as a practical solution for enhancing office productivity and connectivity.

Yealink WF40 Specifications
Network Standard

ï¿½ IEEE802.11b/g/n

Transmission Rate

ï¿½ 150 Mbps

Frequency Range

ï¿½ 2.4GHz

Security

ï¿½ 64/128/152-bit WEP Encryption
ï¿½ WPA-PSK
ï¿½ WPA2-PSK

Interface

ï¿½ USB2.0

L*W*H

ï¿½ 26.9mm*18mm*8mm

## Yealink WF40 - Wi-Fi USB Dongle

Working Temperature

ï¿½ 0&deg;C ~ +40&deg;C (32&deg;F ~ 104&deg;F)

Storage Temperature

ï¿½ -40&deg;C ~+85&deg;C (-40&deg;F ~ 185&deg;F)
