

Netgear GS324T S350 Series 24-Port Gigabit Ethernet Smart Switch with 2 SFP Ports

Product Name: Netgear GS324T S350 Series 24-Port Gigabit Ethernet Smart Switch with 2 SFP Ports Manufacturer: Netgear

Model Number: GS324T-100EUS

Netgear GS324T S350 Series 24-Port Gigabit Ethernet Smart Switch with 2 SFP Ports The Netgear Smart S350 series consists of fiveswitch models, including 8-, 24- and 48-portGigabit Ethernet switches and 8-, and 24-portGigabit Ethernet PoE+ switches with 2 or 4 SFPports for fiber uplinks, offering powerful Layer2 features, enhanced performance and ease ofuse. They are purposely designed for convergednetworks where voice, video, data are all carriedon a single network platform.

Advanced featuressuch as L2/L3/L4 Access Control Lists (ACLs), Quality of Service (QoS), Link AggregationControl Protocol (LACP) and Spanning TreeProtocol (STP) will ensure a high-speed and highlysecured network environment for your business. The 8-port S350 series switch models are in small"desktop" form factors, which will not take muchspace to place. The 24-and 48-port models are also rack-mountable. All models includeKensington lock slot to physically secure yourswitch in open space.

The fan-less 8-port modelsand 24-port non-PoE model will operate silently, ideal for the noise-sensitive environment. The24-port PoE+ model and 48-port model alsowork under 33dBA acoustic level. All NETGEARS350 Series switches support IEEE 802.3azEnergy Efficient Ethernet mode, caring powersaving for your business. NETGEAR S350 Series iscovered by a 5-year limited Hardware Warranty*and extendable support**, offering a worry-freeuser's experience at very affordable total cost ofownership.
