

Yealink 12x Optical PTZ Camera Module for Yealink MeetingBoard

Product Name: Yealink 12x Optical PTZ Camera Module for Yealink MeetingBoard

Manufacturer: Yealink

Model Number: MB-Camera-12X

Yealink 12x Optical PTZ Camera Module for Yealink MeetingBoard

The Yealink 12x Optical PTZ Camera Module is part of the Yealink MeetingBoard product line, is an advanced optical zoom camera designed for medium and large meeting rooms. Featuring a customized slot port design for easy installation on top of the Yealink MeetingBoard, this camera works in conjunction with the built-in wide-angle lens to create a dual 4K camera solution.

Yealink 12x Optical PTZ Camera Module Key Features:

• Crystal-Clear 4K Resolution

• 12x Optical Zoom

• Wide-Angle View

• Auto Framing

Yealink's proprietary intelligent AI voice positioning and image algorithms enable real-time analysis of participant location and behavior. This technology triggers the 12X optical lens to swiftly and accurately track and position participants, providing features like automatic framing and speaker tracking. The result is a high-definition, intelligent, and seamless video conferencing experience that ensures participants are well-framed and the active speaker is prominently featured, enhancing overall meeting efficiency and engagement.
