Yealink 6x Optical PTZ Camera Module for Yealink MeetingBoard

Product Name: Yealink 6x Optical PTZ Camera Module for Yealink MeetingBoard
Manufacturer: Yealink
Model Number: MB-Camera-6X

Yealink 6x Optical PTZ Camera Module for Yealink MeetingBoard
The Yealink 6x Optical PTZ Camera Module The MB-Camera-6X represents an optical zoom camera specifically crafted for Yealink MeetingBoard's in medium and large meeting spaces. Featuring a tailored slot port design, this camera can be effortlessly mounted on the top of the MeetingBoard, streamlining the deployment process. The MB-Camera-6X, coupled with the MeetingBoard's integrated wide-angle lens, forms a sophisticated dual 4K camera solution enriched with Yealink's proprietary AI voice positioning and image algorithms.
Yealink 6x Optical PTZ Camera Module Key Features:

ï¿½ Optical zoom camera for Yealink MeetingBoards in medium/large rooms
ï¿½ Customised slot port design for easy top installation
ï¿½ Dual 4K camera solution with MB-Camera-6X/12X and MeetingBoard's wide-angle lens
ï¿½ Yealink's AI voice positioning and image algorithms
ï¿½ Real-time participant analysis with wide-angle lens
ï¿½ AI-driven tracking: auto framing, speaker tracking
ï¿½ Swift 6X/12X optical lens activation for precise tracking
ï¿½ Consistent optimal viewpoint for HD, intelligent video experience

Leveraging the wide-angle lens, it continuously analyses the real-time positioning and actions of meeting participants. Subsequently, it activates the 6X optical lens to swiftly and precisely track and locate participants, enabling AI-driven tracking functionalities such as auto framing and speaker tracking. This ensures a consistently optimal viewpoint, delivering a high-definition, intelligent, and seamless video experience.
