

John Male British Asterisk Voice Prompt

Product Name: John Male British Asterisk Voice Prompt

Manufacturer: -

Model Number: JOHN-MALE-BRITISH

Availability: Discontinued

Please note that the John British English Asterisk Voice Prompt has been discontinued. We recommend the Rachael Female British Asterisk Voice Prompt as a good alternative.

When a customer calls, what voice would you like them to hear? If your customers are mainly British, why give them the impression you are American?

Why not employ John to handle your calls?

John is a British English, male, full Asterisk Pack.

All the major voice prompts are included to allow you to use the full functionality of the Asterisk PBX right out of the box. This includes Voice Menus, Call Queues, Call transfers, Call Parking, Voice Mail, Error messages, Numbers (digits), letters and Phonetics.

Technical Specifications The Voice prompts are recorded and processed into the gsm audio format in 8.000 kHz, Mono 1 kb/sec. We can provide the packs in other audio formats if you need them.

This pack includes prompts for:

- 1/2 Voice Menus
- 1/2 Call Queues
- 1/2 Call transfers
- 1/2 Call Parking
- 1/2 Conferencing
- 1/2 Voice Mail
- 1/2 Error messages
- 1/2 Numbers (digits)
- 1/2 Letters
- 1/2 Phonetics
