

## Linksys SPA942 IP Phone

Product Name: Linksys SPA942 IP Phone

Manufacturer: -

Model Number: SPA-942-C

Availability: Discontinued

Please note that the Linksys SPA942 has been discontinued. We recommend the Cisco SPA504G as a good alternative. The new Linksys SPA942 is a functionally powerful, easy to use business phone. Featuring comprehensive interoperability and a secure mass deployment capability and more:

• Standard Features on the SPA-942 include: - Two Active Lines - Dual switched Ethernet ports - Power-over-Ethernet - High Resolution graphical display - Full duplex speaker-phone - 2.5mm head-set port.

• The SPA942 is an affordable, business class telephone which can be easily configured as a two line phone. With a simple software update the SPA-942 is upgradeable to four lines.

• Each line can be independently configured to use a unique phone number (or extension), or can be configured to use a shared number that is assigned to multiple phones.

• The SPA-942 can be used in SOHO, enterprise, small to medium business service offerings including IP PBX, hosted IP telephony and IP Centrex along with residential use.

• The SPA942 is based on industry leading VoIP technology from Linksys to deliver a high quality IP phone that is unparalleled in features, value and support.

• The SPA942 is simple to use, with well laid out function keys & utilises the call processing functionality found in existing Linksys products.
