Product Name: Valcom VIP-401-IC Ceiling Speaker

Manufacturer: -

Model Number: VIP-401-IC

Availability: In stock

Valcom VIP-401-IC Ceiling Speaker

The Valcom VIP-401-IC Ceiling Speaker is a one-way ceiling speaker that lays into your drop tile ceiling grid. This model is meant for use with the InformaCast IP Paging software. The speaker measures 11.75in x 23.75in for rectangular ceiling tile arrays. It is meant to replace 1/2 of a 2' x 2' ceiling tile. The Valcom VIP-401 allows equal distribution of sound throughout a large open area without having to hard wire in ceiling speakers. When a drop tile ceiling is being used, the VIP-401 fits into a standard 1' x 2' tile area, allowing unobtrusive audio and easy wiring above the grid assembly. A single RJ45 PoE connection allows you to transmit audio via SIP to the speaker with no additional power requirements.

Valcom VIP-401-IC Features:

- 1/2 One-Way Communication
