Valcom VIP-412-DF-IC Wall Speaker
The Valcom VIP-412-DF-IC Wall Speaker is a one-way, flush mount wall speaker with a 5 character integrated digital clock. This model was meant for use with InformaCast IP Paging software. The VIP-412-DF One-Way IP Wall Speaker with Clock enables voice access to a single zone of oneway paging over an IP-based LAN/WAN. This allows a page zone extension anywhere on the network. The speaker level is electrically adjusted during set up. Clock synchronization is initiated via connection to a factory pre-programmed time server. The enclosure is made of steel with a durable gray powder coated finish. The color of the enclosure can easily be changed to match any decor. A detachable black clothe grille is included. Power is provided to the VIP-412-DF via a Power over an Ethernet switch meeting the 802.3af specification.
