Epygi QuadroM26xi High Capacity Hybrid ISDN BRI IP PBX Solution
Migration from a traditional telephone system to Voice over Internet Protocol (VoIP) is now even simpler with the Epygi QuadroM26xi. This solution offers high density analog FXS ports and digital ISDN BRI CO lines for small and medium businesses expanding to VoIP. The QuadroM26xi offers six (6) ISDN BRI trunk ports, 26 FXS analog station ports and up to 80 IP phones. Features & Benefits

ï¿½ High capacity hybrid solution
ï¿½ Enterprise-level features
ï¿½ IP phone flexibility
ï¿½ Video and HD audio
ï¿½ Analog phones: 26 IP phones: 16
ï¿½ Add'l IP phones with keys: up to 80 in blocks of 16, 32 or 64
ï¿½ Concurrent Calls: 45

The ISDN BRI ports support NT and TE selectable mode options. In addition, this PBX has an audio input and output ports for music on hold and paging speaker connections. Additional storage options include a compact flash slot or an external FTP server for recorded calls or system backups. This solution is intended for non-USA markets with ISDN BRI network providers.The QuadroM26xi includes many of the advanced features found in our enterprise-level products. These features include call recording, audio conferencing, Automatic Call Distribution (ACD) for call centers and the barge-in feature pack. Advanced features are purchasable items, so customers can choose what they pay for instead of being locked into a one-size-fits-all solution. An additional value included with the QuadroM26xi is support for HD audio, point-to-point video and other desktop productivity tools. To further simplify a customer’s needs, this product includes an integrated firewall, DHCP server and router Migration StrategyInvesting in this solution solves the need for analog and digital port demands and future VoIP needs. The QuadroM26xi is the last hybrid ISDN product small-tomedium-sized businesses will need before a pure VoIP solution is in demand. Invest now for the future. Enterprise Features for Smaller OfficesThis solution is intended for small enterprise offices that demand features and reliability that is normally reserved for very large enterprise customers. The QuadroM26xi can cost effectively provide that enterprise-grade product at a small business price. Note: Please refer to the Epygi IP PBX Range Detailed Comparison Table for more information.
