Sangoma PBXact UC60 Phone System - 60 Users

The Sangoma PBXact UC60 Phone System - 60 Users appliance is a purpose-built, high-performance PBX solution. Designed and rigorously tested for optimal performance, this is the only officially supported hardware solution for PBXact.

• Supports up to 60 users or endpoints and 40 simultaneous calls

• Pre-loaded with PBXact Software

• Local VGA / Console Web GUI SSH

• Intel Celeron Quad Core

• Single 120GB SSD

• 2GB RAM

• 3 Gigabit Ethernet Port

• 2 PCI Express slot (for Analog, BRI, PRI, E1, T1 and J1 Interfaces)

• 1U Form Factor Case (with brackets)

• 1 Year Warranty

Sangoma PBXact UC60 Phone System - 60 Users is based on the world's most popular open source PBX platform, FreePBX. We bundle in advanced functionality and tightly integrate this functionality across phones, web based user control panels and operator panels. PBXact provides one of the easiest systems for users to get started using, with little or no training. In addition to the advanced functionality we also provide system integrators with POMP's (Peace of Mind Packages), that provide easy upgrade paths, via a tightly controlled upgrade mechanism, allowing you to keep your systems updated with the latest and greatest features, and security fixes, as well as offsite backups of your system. PBXact was designed with one thing in mind: enhancing business communications to impact your bottom line. In order to accomplish that goal, we offer some really unique, tightly integrated features that allow you to custom design business communications around your needs.
