Cetis Teledex E100IP 4GSK IP Phone
The Cetis Teledex E100IP is an IP phone with 1 SIP line. The Teledex E Series phones have created an entirely new hotel guestroom telephone category. Originally designed to meet the limited space requirements aboard cruise ships, the E Series phones require less room on the hotel guestroom desk and nightstand, and consume less energy in the manufacturing process, so the impact on the environment is smaller.
