

## CyberData Multicast VoIP Microphone (011446)

Product Name: CyberData Multicast VoIP Microphone (011446)

Manufacturer: CyberData

Model Number: 011446

### CyberData Multicast VoIP Microphone (011446)

The CyberData Multicast VoIP Microphone (011446) is a device that allows the user, while pressing the "Page" button, to broadcast live or buffered announcements directly to VoIP audio endpoints that support Multicast. This PoE-powered product is perfect for immediate live paging in schools, retail stores and manufacturing environments. In an echo sensitive environment, the delayed page support allows the user to record a message while the page button is depressed. Once the page button is released, the page will be sent. CyberData has maintained one of the most comprehensive list of IP PBX servers certified to work with CyberData VoIP Products.
