Yealink Microsoft S4B/Teams Room System Wired - Medium (YL-MVC500-WIRED)

The Yealink YL-MVC500-WIRED is the brand-new video conferencing system released by Yealink that revolutionises the Microsoft Teams Rooms meeting experience. The Yealink MVC Series is deemed to cover all the usage scenarios and provide you with the excellent meeting experience in the conference room. Consisting of the touch console, content sharing unit, audio and video peripherals, and mini-PC, the Yealink MVC Series enhances the whole meeting experience with the familiar Microsoft Teams Rooms interface and a close-to-zero learning curve.

Yealink YL-MVC500-WIRED Key Features

- ½ Wireless Content Sharing
- ½ Wired Microphone
- ½ Yealink Camera Control Plug-in
- ½ 1080P/60FPS
- ½ Device Management

The Yealink MVC500 wired includes a VCM34 wired microphone and each MVC500 can connect up to four units and a powerful pan-tilt-zoom camera with 5x optical zoom, to cover up a small conference room.

Easy to Start and Manage Meetings Its familiar Microsoft Teams Rooms interface and functionality not only makes it easy for everyone but also saving your time to join the meeting faster. The Yealink Plug-in software lets you get rid of the remote control, you can control the USB PTZ camera on the touch console directly via its software.

Premium Audio and Video Meeting Experience UVC50 is Yealink's next-generation camera that supports 1080P/60FPS video calls to make your business discussion be as life-like and interactive as possible. For its premium voice quality, the solution is combined with the VCM34 wired microphone. Besides, Yealink Noise Proof technology effectively eliminates background distractions and noises, guaranteeing a crystal-clear voice even in a noisy environment.

Flexible and Simple This solution provides you with an individual touch console that separates from the mini-PC, not only making the deployment more flexible but also rewarding you a tidy and smart conference table.

Easily Managed through Yealink Device Management Platform This solution supports Yealink Device Management Platform/Cloud Service, you can flawlessly manage, monitor, configure, update and diagnose all Yealink audio and video devices peripherals on this platform remotely.
