

Snom D335 IP Phone

Product Name: Snom D335 IP Phone

Manufacturer: -

Model Number: D335

Please Note: This product has been discontinued. For an alternative, please see the Snom D385N VoIP Phone

Snom D335 IP Phone

The Snom D335 has a high-resolution TFT colour display which is framed by 8 physical, freely programmable function keys. In addition, thanks to the integrated DSP processor, it offers the familiar HD sound when making calls. But the real highlight of the device is the integrated smart proximity sensor, with which the user interface of the phone can be controlled.

Snom D335 Key Features

- High-resolution TFT display
- 32 self-labeling function keys (8 physical)
- Sensor technology enables responsive UI
- Wideband hands-free talking (speakerphone)
- Digital Signal Processor (DSP) enhanced audio quality
- 2-port Gigabit Ethernet switch (RJ45)
- Power over Ethernet IEEE 802.3af, Class 2
- USB headset ready
- D3 Expansion Module ready
- Support for USB WiFi stick
- Electronic Hook Switch (EHS) support for wireless headsets
- Dedicated button for page toggling

If the user's hand approaches the phone's display or function keys, the display activates automatically and shows all relevant information on key assignment. This allows even more information to be shown on the display without compromising clarity.

But that's not all, the Snom D335 has more tricks up its sleeve. These include an integrated Gigabits switch with Power over Ethernet (PoE) functionality, a USB port to connect various additional devices (Snom USB stick or the Snom D3 expansion module) and much more.
