Yealink WH67 Teams Workstation DECT Wireless Convertible Headset

The Yealink WH67 is the Industry-leading convertible DECT wireless headset, opening an entirely new form of desktop collaboration. Work seamlessly with major UC platform and integrate natively with Yealink IP Phones. 4.0 inch (480 x 800) capacitive touch screen of base offers newly work experience, just one touch, all control. Act as a workstation, managing phone calls, connecting with multiple devices (desk phone/mobile phone/computer), charging mobile phone wirelessly, and even playing a speakerphone's role. Best of all, deploying such a multifunctional workstation only needs to plug directly. Easiest things to do, greatest convenience to enjoy.

Yealink WH67 Key Features

- Multiple Devices Connection
- Speakerphone Mode

Deliver HD Voice with Yealink Acoustic ShieldWith Yealink Acoustic Shield technology, the headsets could well filter out background noise by 2x microphones while you are on a call, which provides a HD voice quality for your listeners, and ensures distraction-free conversation. **Match your Platform**Thanks to the broad compatibility of Yealink personal collaboration devices such as headsets, speakerphones and USB cameras, users can enjoy consistent call experience across UC platforms, which promises better communication quality, higher productivity and lower IT costs. Certified for Microsoft Teams, the devices designed with a dedicated Teams button for activating Microsoft Teams with one touch.

Multiple Wearing OptionsWH67 supports different ways of wearing, ear-hook, headband, and neckband, satisfying personalised needs. It can also free you up to 120m away from the desk, enjoying larger workspace and bettering work experience. **Wireless Freedom & All Day Power**No matter when and where your conversation begins, the headsets can always catch up your steps. With up to 160m wireless range and 14 hours talk time, it is suitable for users' daily communication needs. In addition, the product supports high density installation in the open office, which allows up to 200 users (Europe) enjoy the wireless communication at the same time.
