

Epygi Quadro 16xia

Product Name: Epygi Quadro 16xia

Manufacturer: -

Model Number: -

Please note that this product has been discontinued. For an alternative we recommend the Epygi IP PBX selection

The Quadro16xia is the fully featured ISDN IP PBX for growing small businesses that prefer ISDN connectivity for the PSTN and ADSL for the Internet. With its three ISDN lines and three ADSL lines the Quadro16xia provides up to 70 physical and virtual extensions to make up to 20 calls in parallel. Besides 16 FXS phones, 48 fully featured SIP phones may be attached to Quadro16xia's LAN port. In addition, the SIP extensions assigned to a line may be mirrored and act as remote IP extensions. Wherever you are, calls will reach you, and you will be able to make calls as if you were in your office. **Feature Rich IP PBX** The Quadro16xia offers the same multitude of features as all Quadro IP PBXs: extensive PBX functionality, integrated voicemail, cost saving call routing functionality, IP routing, SIP and H.323 call signaling and much more. **Integrated Internet Access Router** The Quadro16xia IP PBX embodies a fully-fledged Internet access router with firewall security, including IDS, NAT, policy and service based filtering as well as stateful inspection. Data security is also enhanced by an extensive IPSec VPN functionality with DES and 3DES encryption. **VoIP Carriers** As with all Quadro IP PBXs, the Quadro16xia is easily applicable for VoIP Carriers as well as small businesses. For VoIP carriers, a special wizard has been implemented that facilitates the configuration of Quadro16xi to work according to individual requirements.
