

Cyberdata InformaCast-Enabled WiFi Alert Button (011527)

Product Name: Cyberdata InformaCast-Enabled WiFi Alert Button (011527)

Manufacturer: CyberData

Model Number: 011527

The CyberData InformaCast® Enabled WiFi Alert Button provides an easy and reliable device that, when depressed, will send a message to the InformaCast Server. This will create an event within the InformaCast software which will then generate an appropriate mass notification response.

The device can be mounted on the wall or discreetly under a desk. Powered by an external +5V supply - such as a cell phone charger - and with a 4-hour back-up battery, the CyberData WiFi Alert button is a key component to your emergency notification solution.
