Yealink MVC660 Microsoft Teams Rooms System
The Yealink MVC660 is a video conferencing solution designed for medium-sized rooms. With UVC86 4K dual-eye tracking camera for intelligent video experience, smart MSpeech speakerphone fully covering medium space audio, MCore mini-PC, and MTouch II touch panel, the Yealink MVC660 bundle solution enables users to enjoy the seamless Teams meeting in medium-sized rooms. The simplified deployment with one CAT5e-cable technology, wireless content sharing with WPP20, and the Yealink Device Management Platform for device management ensure an easy and user-friendly experience.Yealink MVC660 Key Features:

ï¿½ One Cable Technology
ï¿½ 3-Microphone Array
ï¿½ Yealink Camera Control Plug-in
ï¿½ Device Management
ï¿½ Speaker Tracking
ï¿½ Auto Framing
ï¿½ Presenter Tracking
ï¿½ Wireless Content Sharing

Native Microsoft Teams-tailored user interface, smooth conference experienceNative Microsoft Teams-tailored user interface offers a one-touch meeting join. Designed with the idea of multi-function all-in-one, theMTouch II touch panel allows you easily perform call control, camera control, content sharing and other functions. At the same time, MTouchII has a built-in Human Motion Sensor that the conference system can be automatically waken up and you can immediately start the conference.Smooth tracking feature & smart audioYealink UVC86 camera allows for the auto-framing of all participants present at a meeting, speaker-tracking of the speaker talking at ameeting, and presenter-tracking of the presenter at a meeting, freeing your hands and focusing on the meeting itself. Meanwhile, with theYealink camera control plug-in and camera presets supported, the mechanical pan, tilt and zoom can be easily done quietly in one step.Empowered with 12x optical zoom, UVC86 supports 4K video calls that conducts business to capture everyone in the meeting room clearly.the UVC86 delivers face to face, intelligent and smooth video experience by precisely reproducing every moment and detail, always showing the best picture of your room. Working with MSpeech, MVC660 can provides the voice recognition feature of Teams meeting roomapplication, including voice transcription, real-time translation, and Cortana voice assistant.Content sharing in real timeThe unique wireless content sharing solution provides participants with maximum flexibility, that a one-click content sharing can be simplyrealized by plugging into the WPP20 only. With a high resolution of 1080P/30 frames, it provides users with a better content sharing experience. Besides, the wired content sharing is also available by connecting to the USB-C port or HDMI port.Simple to deploy, easy to useWith the VCH port, MCore is specially designed for the video meeting rooms that the deployment can be easily extended. At the same time,its all-in-one design with the feature of cable management ensure the stability of the wire connection, and the most appropriate deploymentcan be achieved according to the layout of the meeting room. One CAT5e is totally enough to connect the TV area and the conference tablearea and to complete the data transmission and power supply, no additional power supply or extension cable is needed, which not onlysimplifying the deployment but also effectively reducing deployment costs.Manage your devices remotelyThis solution supports Yealink Device Management Platform/Cloud Service, you can flawlessly manage,

Yealink MVC660 Microsoft Teams Rooms System

monitor, configure, update anddiagnose all Yealink audio and video devices peripherals on this platform remotely
