

Yealink VP59 IP Video Phone Teams Edition (VP59-teams)

Product Name: Yealink VP59 IP Video Phone Teams Edition (VP59-teams)

Manufacturer: Yealink

Model Number: VP59-teams

Yealink VP59 IP Video Phone Teams Edition (VP59-teams)

The Yealink VP59 Teams edition video phone is designed as an executive desk phone and also can be used in huddle spaces. By adding on a USB camera (Yealink UVC30 camera) and a wireless microphone (Yealink CPW90-BT-Single), you can enjoy Teams video collaboration easily in huddle spaces.

Yealink VP59 Teams Key Features:

- Android 9.0 OS

- 8" capacitive adjustable touch screen

- Native Microsoft Teams user interface

- Optimal HD audio, Yealink Noise Proof Technology

- Support expansion with Yealink Wireless Mic CPW90 (Optional)

The VP59 video phone integrates voice and video solutions for personal desks. The 8-inch multi-point touch screen and the native Teams interface provide a rich visual presentation and easy menu navigation, which helps reduce the learning curve. Users can start and answer phone calls simply, quickly join and control Teams meetings, and enjoy Teams collaboration at ease with the VP59.

The VP59 8-inch (1280 x 800) adjustable multi-point screen provides a rich visual presentation. The Hardware Offloading technology ensures 720p resolution for both P2P video and content sharing. Moreover, with the HDMI output, users are able to sync the screen to a monitor for a brighter and wider visual experience when working with a multi-person video meeting or checking the content shared on the screen.

The Yealink Optima HD Voice and Yealink Noise Proof technologies deliver a marvelous audio clarity. Users can work and talk freely without noise or other disturbances. The built-in Bluetooth 4.2 and dual band Wi-Fi support a Bluetooth wireless headset and wireless microphone for a longer voice pickup distance, bringing great functionality for personal workstations. With the VP59, users can talk hands-free or enjoy more wireless desk-working experience.

The Yealink VP59 video phone simplifies deployment for users who need to deploy both voice and video devices in a personal workspace just through PoE with a single cable connection. Coupled with Yealink's efficient auto-provisioning mechanism, including phone deployment and configuration, the Yealink VP59 enables administrators to take advantage of the centralized deployment, management, and updating. Moreover, VP59 supports several device management platforms, including Microsoft/Yealink/Unify Square Device Management Platform.
